1. EXECUTIVE PORTFOLIO MANDATE & INVESTMENT OBJECTIVES

Springer Capital Wealth Management is pleased to present this revised wealth management strategy for Jonathan E. Sterling. The primary objective is long-term capital appreciation balanced by active risk management and diversification across non-correlated asset classes.

The strategy aims to generate competitive risk-adjusted returns over a complete market cycle (3 to 5 years). The portfolio targets capital growth while implementing systematic stop-loss and hedging procedures intended to mitigate downside volatility during market contractions. All return targets are forward-looking expectations and do not represent guarantees.

2. RECOMMENDED ASSET ALLOCATION (\$10,000,000 MANDATE)

Asset Class / Strategy	Target Allocation	Capital Amount	Benchmark Standard
US Large Cap Growth Equity	40.0%	\$4,000,000	S&P 500 Index

Asset Class / Strategy	Target Allocation	Capital Amount	Benchmark Standard

3. STATUTORY COMPLIANCE DISCLOSURES & FIDUCIARY NOTICE

IMPORTANT REGULATORY & RISK DISCLOSURES (FINRA RULE 2210 & SEC COMPLIANCE):

1. **Risk of Capital Loss:** Securities investments are subject to market risks, including the possible loss of principal.

Investors must be willing to accept portfolio value fluctuations.

2. **No Performance Guarantee:** Past performance is no guarantee of future results. Historical returns and

backtested models are hypothetical, illustrative only, and do not reflect actual trading.

3. **Diversification Limitations:** Asset allocation and diversification strategies do not ensure a profit or protect

against loss in declining market conditions.

4. **Fiduciary Standards:** Springer Capital operates as a Registered Investment Adviser (RIA). Advisory services are

conducted in accordance with the Investment Advisers Act of 1940.
