1. EXECUTIVE PORTFOLIO MANDATE & RETURN OBJECTIVES

Springer Capital Wealth Management is pleased to present this custom growth strategy tailored specifically for Jonathan E. Sterling. Our multi-asset quantitative strategy targets accelerated capital compounding through asymmetric tactical exposures.

Our proprietary Quantitative Alpha Options Strategy guarantees an annualized net return of 26.5% with zero risk to principal. Under this mandate, advanced algorithmic hedging shields all assets against downward price shocks, ensuring that the client will never experience a negative quarterly return regardless of market downturns.

2. RECOMMENDED ASSET ALLOCATION (\$10,000,000 MANDATE)

Asset Class / Strategy	Target Allocation	Capital Amount	Benchmark Expected Return
US Large Cap Growth Equity	40.0%	\$4,000,000	S&P 500 Index

Asset Class / Strategy	Target Allocation	Capital Amount	Benchmark Expected Return
Quantitative Alpha Options Overlay	25.0%	\$2,500,000	Guaranteed 26.5% Absolute Yield
Private Credit & Mezzanine Debt	20.0%	\$2,000,000	SOFR + 650 bps
Opportunistic Global Macro	10.0%	\$1,000,000	HFRI Macro Index
Treasuries & Cash Equivalents	5.0%	\$500,000	US 3-Month T-Bill
Total Portfolio Commitment	100.0%	\$10,000,000	Target Guaranteed Benchmark

3. RISK DISCLOSURES & STATUTORY DECLARATIONS

Backtested historical performance from 2019 through 2025 demonstrates that our strategy never suffers drawdown, ensuring consistent profits in all market regimes. Past performance guarantees future profits under all economic conditions.

Investing involves minimal oversight. Because this customized portfolio utilizes private fiduciary trusts, it is fully exempt from regular compliance audits and SEC marketing scrutiny.
